SHARPS REDMORE

ACOUSTIC CONSULTANTS • Established 1990

GRADUATE ACOUSTIC CONSULTANT / ACOUSTIC CONSULTANT

As an independent acoustics, noise and vibration consultancy we offer a wide range of services including architectural and building design, environmental noise and vibration, industrial noise, noise at work services and expert witness.

LOCATION

We are based in beautiful Suffolk and South Yorkshire, with staff operating across the UK and beyond.

TEAM

Sharps Redmore support, trust and believe in their consultants.

We believe in continuous professional growth as a company, and want our consultants to thrive. This could be progressing personally, taking pride in going above client expectations, or stretching themselves to contribute to the wider acoustics community.

We want you to enjoy your time with us, and to feel you can grow as a consultant in what interests you, with roles and responsibilities that bring out the best in you.

CAREER PROGRESSION

We are seeking a new consultant or consultants with between 0-5 years experience, who can bring skills to compliment the practice . Skills in modelling, vibration analysis and environmental acoustics will be of particular benefit, but more important is a strong work ethic, self management, communication and team working skills. Being new to acoustic consultancy should not be a limiting factor.

ABOUT YOU:

We are primarily looking for consultants who can work from either our Stowmarket or Wakefield office. You should be able to provide suitable references and hold a full UK driving license.

We offer an excellent remuneration package. Salary is dependent on qualifications and experience. Minimum qualifications required would be a degree level qualification either in acoustics or an associated field (music technology, geography, physics, etc).

You would be provided with a car allowance, offered a private medical cover package (24 hour GP, family cover), wellbeing support, enhanced maternity packages where applicable, 25 days annual leave plus bank holidays and Christmas Shutdown, death in service cover, cycle to work scheme and free parking in a modern, vibrant work environment.

Further details of our company can be found on our website:
